2020 Provincial Coaching Courses THE NEW CERTIFICATION PATHWAY

Technical Department
2020

Dear Coaches,

2020 is another very exciting year for Soccer in New Brunswick. The Technical Development Plan sets out a series of specific goals and objectives to grow and improve the game at all levels.

One of our main objectives is to increase the number of trained and certified coaches at all levels of the Game based on the CSA's new Long Term Players Development Model. From the Grassroots to elite levels every player deserves high quality coaching. A series of new programs will be introduced to our players, and these programs will be supported by a variety of coaching courses.

The Grassroots Passion for Soccer (GPS) program is designed to offer, free of charge, 2-hour coaching workshops to introduce soccer coaching to volunteer parent coaches working with young players (3 to 10 years). Every year more than 600 coaches benefited from our Grassroots coaching programs.

The Excel Academies Program will provide our coaches with a network for interaction among each other and learn more about the game. The Excel Academies Program will be the vehicle for implementation of the Mentorship program to help our coaches to get better and be ready to pass their licenses.

There is a more focussed approach to keep our coaches updated and informed through the implementation of the Long Term Player Development. At our annual Coaching Symposium, we were very happy to have attracted quality professional coaches and soccer experts to share their experiences with coaches from across the Province.

We need to continue to build on the efforts already going on and work hard to develop the content in the coaching courses and design programs appropriate for our coaching community.

The NEW CANADA SOCCER LTPD CERTIFICATION PATHWAY

Soccer New Brunswick is pleased to introduce and implement the **new national coaching certification pathway and program from January 2020**. A transition to a Coaching Education Framework launched by Canada Soccer in conjunction with the National Coaching Certification Program (NCCP) is taking place and during this period there will be changes made to the coaching requirements in New Brunswick. As part of the process, the new Canadian Soccer Association's Long Term Player development (LTPD) Coaching Education programs will be separated into two coaching streams:

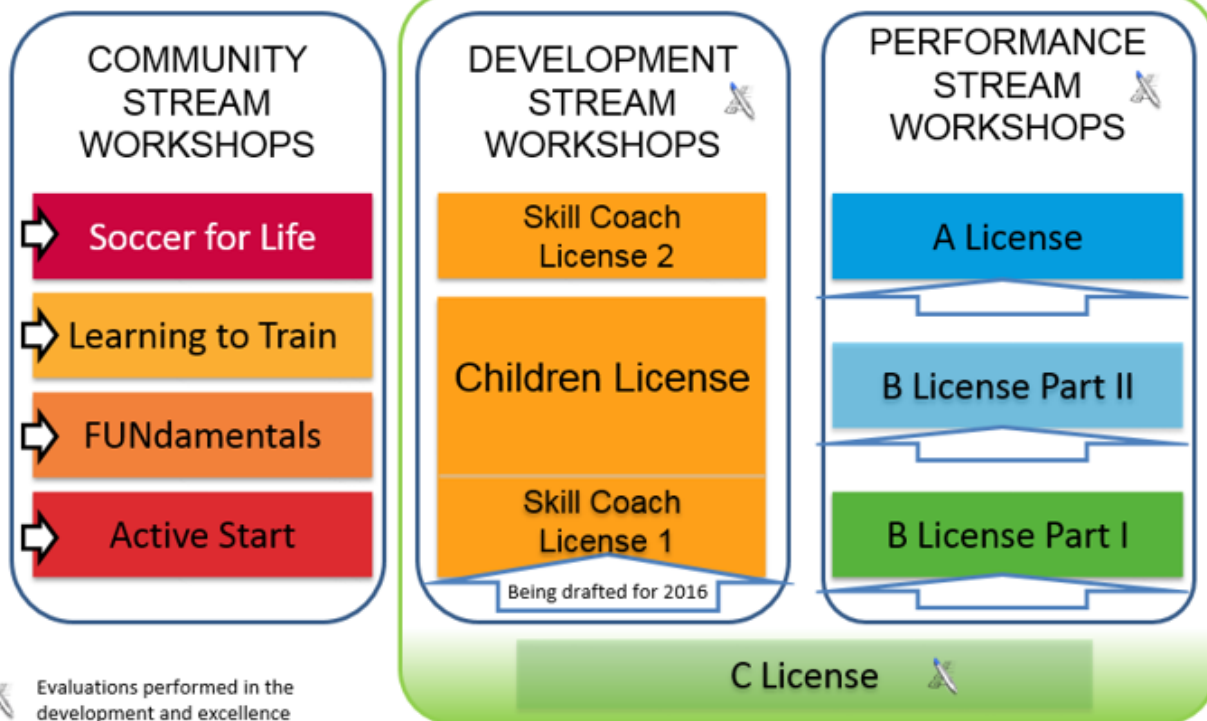

-Community Stream

-Excellence-Competition Stream

The new course format will include material developed based on the 'Wellness to World Cup Long-Term Player Development Program (LTPD)' developed by the Canadian Soccer Association focused on age and stage relevant training and coaching. **There will be no pre-requisites to enter either of the new streams allowing coaches or organizations to determine what level of appropriate training they require.**

Repetition is important to develop technical proficiency, but creating a fun and challenging environment is still an absolute necessity to stimulate learning and promote a love of the game. Game formats can range from 6v6 to 8v8 as players advance through this stage, and again a simple league schedule can be created, but no standings should be kept – the emphasis is still FUN. Tactical awareness becomes an increasingly important part of training, alongside mental toughness, concentration, and diligence. Elite soccer groups may express interest in recruiting talented young players, but coaches and parents should be careful to recognize and protect the long-term interests of each athlete. Game formats develop from 8v8 to 11v11 (although no 11v11 prior to 13 years of age) as players grow through this stage, and the season moves toward year-round play that includes appropriate rest and recovery periods.
