# LONG TERM PLAYER DEVELOPMENT

Research has proven that to get the very best out of any player's potential they need to develop basic physical literacy. They need certain things to be available to them at certain stages of development to be fit AND they also need to receive excellent instruction, ALL while having FUN in order to ensure their physical and mental development in the sport.

LTPD-based programming will provide players with a strong foundation making them more likely to stay in the sport and help them to enjoy soccer for life.
